github.com/k-charette 

TECHNICAL SKILLS

Languages | CSS/Sass, GraphQL, HTML, JavaScript,
React, React Native, Redux, Ruby on Rails

Databases | MongoDB, PostgreSQL, SQL

Software/Tools | Capybara, Enzyme, Foundation
Jest, Git/GitHub, Heroku, RSpec

PROJECTS

(Launch Academy) Pathways: path-ways.herokuapp.com, github.com/k-charette/path-ways

- An application designed to inform users about Bluebikes dock stations in the Greater Boston Area. Users can review and leave comments about each station. Integrated Bluebikes data and Google Maps API into React with a Ruby on Rails back-end server for user data.

(Launch Academy) Fruits of the World: fruits-of-the-world.herokuapp.com, github.com/7KAG7/fruits_of_the_world

- Allows users to review fruits from around the world. Integrated with a React front end and Ruby on Rails back end. Applied many skills such as managing workflow and continuous integration learned through Launch Academy.

RELATED EXPERIENCE

Apprentice Full Stack Developer | Launch Academy

Boston, MA | July 2019 – November 2019

- Completed immersive program to become a Full Stack Web Developer.
- Learned JavaScript, React, Ruby on Rails through a rigorous curriculum and projects.
